## Synonyms word list for grade 3

A synonym is a word having the same or almost the same meaning as another word in the same language, e.g., small and tiny; these two words have similar meanings. Most reading/language arts curriculums cover both antonyms and synonyms. In the early years, easy synonyms are introduced, e.g., big/large and little/small. Synonyms are commonly used in analogies, e.g., reckless as careless as surpass is to exceed. Below please find a list of common synonyms as well as free worksheets. List of Synonyms Our list of synonyms contains many words. Please utilize our search bar to narrow your results.
